

PRESS RELEASE

FOR IMMEDIATE RELEASE

The Revelation Perth International Film Festival shows its innovative streak with the presentation of the Best of DomeFest.

Perth, Western Australia [14 June, 2010] – Australia’s most unique film event has partnered with the Australian Network for Art & Technology, DomeFest, and Horizon, the Planetarium to present a stunning collection of award winning films designed specifically for the full dome environment.

Each year in Albuquerque, New Mexico, USA, DomeFest showcases the best international full dome films, a new and powerful digital medium that provides audiences with an unprecedented immersive experience using large-format hemispheric screens and omnidirectional sound.

The *Best of DomeFest* is an extraordinary compilation of the best-of-the-best films that have picked up coveted prizes at DomeFest over the past seven years. Now, Western Australian audiences have the opportunity to see these cinematic works that engage and enthrall unlike anything else on a big screen.

ANAT Program Manager, Vicki Sowry comments, “No longer ‘limited’ to the cosmos, fulldome is an exciting and developing platform with the potential to capture and engage audiences as never before”.

The Revelation Perth International Film Festival presents a special once-only screening at 7.30pm on Saturday 17th July 2010 at Horizon, the Planetarium located at Perth’s CityWest Centre. Whilst entry is free, bookings are essential as seats are limited – phone (08) 9215 0740 or email bookings@scitech.org.au.
